THEO II

Beta Testing
~~04/11/2024 – All bugs fixed~~
~~04/14/2024 – All bugs fixed~~
~~04/16/2024 – All bugs fixed~~
~~04/17/2024 – All bugs fixed~~
04/18/2024 – Synchronize changes between /THEO and /TABLET code

Please synchronize these changes you made to /THEO to the /TABLET code (which we call "PreventONE"). All of these features will be mutual between /THEO and /TABLET. Thanks.

1. Non-working "Eligibility" choice after adding a patient

   When you ADD a patient by pressing "Add Patient"...

   And complete the basic information..,..then click SAVE at the bottom...you get the Patient Detail screen. There is an "Eligibility" selection on this screen that is non-functional. Please remove that "Eligibility" selection.

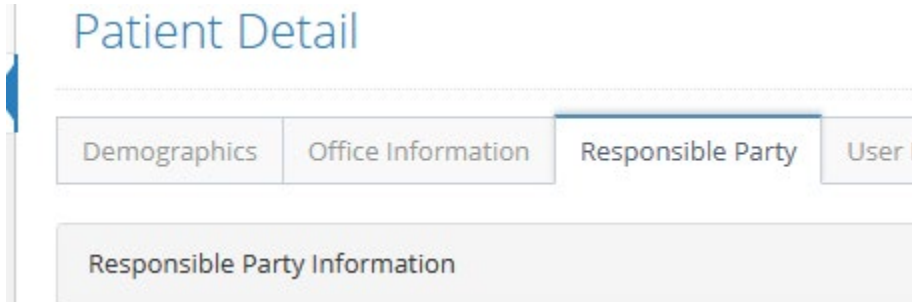

2. Please make the same menu changes you made to /THEO to the /TABLET code:

Provider Report
Patient Report
Clinical Track

ort | View Report ▼ | Save

Save Provider Report
Save Patient Report
Save Clinical Track

Save Report ▼ | Print Re

Print Provider Report
Print Patient Report
Print Clinical Track

eport ▼ | Print Report ▼

3. In the /TABLET code please fix this bug that you fixed in /THEO:
   When you click on the "Responsible Party" tab it changes the first tab FROM "Patient Information" TO "Demographics"

Patient Detail

Demographics	Office Information	Responsible Party	User [

Responsible Party Information

THANK YOU!
